DETAILED ACTION

Receipt is acknowledged of the amendment and information disclosure statement filed 09/27/2004.

The rejection under 35 USC 102(b) over Domb et al is maintained in this action.

Response to Arguments

Applicant's arguments filed 09/27/2004 have been fully considered but they are not persuasive.

Applicant argues that since the hydrophilic/hydrophobic solvent mixture (water and organic solvent) of the Domb et al reference is evaporated, the reference does not anticipate the claims. However, the intermediate step which forms the emulsion does indeed anticipate the claims since the emulsion mixture is indeed a liquid (see Hawley's Medical Dictionary, Life Science Dictionary). The limitation "for direct administration to an organism" is viewed as an intended use and is not given patentable weight. Emulsions are well known as drug delivery vehicles for "direct administration to an organism", and can in and of themselves be used as drug delivery systems. As such, the instant claims are anticipated by Domb et al.

Claims 2-10, 14-20, 25-33 and 35-40 are objected to as dependent upon a rejected base claim.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
